Docket No.: 21900-00034-US

AMENDMENTS TO THE ABSTRACT

Please substitute the following paragraph(s) for the abstract now appearing in the currently filed specification:

~~The object of the present invention is to provide a~~ A ~~bedsore preventing method for effectively preventing bedsore of patients, and a bedsore preventing product such as bedsore preventing sheet, bedsore preventing cloth, bedsore preventing mattress, bedsore preventing bed, and bedsore preventing bed pad, and also to provide a method for manufacturing these products. Bedsore is prevented by effectively decomposing and removing smelling components and harmful components generated by a patient and stagnating on the patient's skin. For this purpose, the bedsore preventing product comprises a sheet 10 made of nonwoven fabric or paper and a deodorant also serving as an agent for removing harmful substances processed by graft polymerization. By arranging the bedsore preventing product on a portion of a patient's body in contact with a bedding material or on surface or inside of the bedding material, bedsore on the patient's body can be prevented.~~
